Gifsicle is a command line tool for Windows to manipulate gif (or animated gif) files. Both Gifsicle and Gifsicle are command line tools for Windows to manipulate gif (or animated gif) files."Put it this way: If you have a government policy that will cost jobs and lose employment, and you're saying there's no damage to the economy, you should be questioned on whether you've ever checked the finances to see what the impact is," she told AAP. Australia's economy grew by

0.8 per cent in the six months to September quarter, slightly missing expectations. The government's budget strategy is expected to rely heavily on mining tax revenues. Ms Gillard, who has criticised the government's plan to introduce an emissions trading scheme and its plan to cut unemployment benefits, said there was no evidence the mining tax would actually increase employment. "Put it this way: If you have a government policy that will cost jobs and lose employment, and you're saying there's no damage to the economy, you should be questioned on whether you've ever checked the finances to see what the impact is," she told AAP. Ms Gillard did not mention Mr Rudd by name, but the Labor leader might face questions about the financial impact of an emissions trading scheme that is likely to be strongly supported by the government. Labor wants to introduce the scheme by 2012, four years ahead of the Government's plan. With a mining boom and rapid consumer spending, the Australian economy is set to outstrip the UK in terms of growth this year. "We've had a very strong demand for labor. We've had a very strong supply of labor. Obviously, the big reforms that will be required to address the budget problem

on the horizon are ones that
