Dec 11, 2021 - Coub is a YouTube for video loops. You can take any video, trim the best part, combine it with other videos, add a soundtrack. Anything you can do with any video. And with that content, you can keep creating new videos. But now I want you to know why I don't want you to upload it to YouTube if: 1. You want to share it with other people. 2. You want people to know what I'm really saying in this video. 3. You just want to be able to share this video, but I don't want you to upload it to YouTube.
