Features: It's easy to use, lightweight and user-friendly Multiple profiles Smart backup system Supports multiple devices Easy, sleek interface Supports multiple devices Different profiles Easy backup system Looking for a simple to use, Ease of use and loaded with features KONNECT is an application that is a perfect fit for your fitness

#### **What's New In?**

As its name suggests, this program helps users manage their business easily by providing them with the required tools to organize and edit the different data they collect on their clients, attendees, treatments, etc. With this software, you can create appointments, manage your business schedule, add receipts and then export the information as reports and charts. User friendly program This program allows you to create appointments and manage your business schedule with ease by presenting the following shortcuts: quick creation of appointments, reminder and journal; quick access to the most recently created appointments; a simple clock, suitable for both desktop and mobile devices, since it can automatically create appointments in your default calendar; and a reminder and journal. This program is

---

straightforward, easy to use and packed with various useful functionalities, which can be accessed in a straightforward manner. Mobile calendar support Leader also offers complete support for all major mobile devices, such as smartphones and tablets, thus allowing you to create appointments on the go. This program allows you to easily create an appointment or manage your schedule on the go, simply by clicking the icons on your mobile device. Data input This application helps you organize information regarding your clients, clients, appointments and treatments by letting you use numerous types of data as its input field. For instance, the client's full name is supported as input and you can export the information in various formats, such as CSV, PDF and HTML. It is also possible to input information regarding your clients' measurements, such as weight, height and age, or even their key features, such as high blood pressure, allergies, etc. This means that you can manage the data you store regarding your clients' measurements easily, even if you use various mobile devices. Date/time input Leader can also store data about your appointments, whether it is a fitness class or a swimming lesson. This program allows you to schedule future events by inputting data regarding the date and time. It is also possible to schedule appointments, such as a swim lesson or a fitness class. Set reminders Leader is also capable of creating reminders for appointments, which will be displayed on your calendar or in your phone's notification bar. Consultation record The consultation record section is also supported in this program, making it possible for you to enter the consultation details, such as time, age and physical condition of the patient, etc. Password protection Leader comes with
