March 18, 2021 4€ When defining a new flat beam, a new option has appeared that allows set the size of the web according to the size of the flange weld for design Calculation of the web to flange weld in MasterSeries. As before, the user has the option to manually change the size of the weld on the flange. To do this, press and hold the Shift or Ctrl key while moving the slider. Now you can also indicate on the shelf where this part should be welded. This value will be automatically applied in the calculation of all beams. This new option is available in the following programs: MASTER SERIESÁ@ 2 MASTER SERIESÁ@ PLUMBINGÁ@ MASTER SERIESÁ@ 3 MASTER SERIESÁ@ 4 CABINET SPAR CABINET SPAR PLUS
