Take advantage of the natural tonal shift between notes as you sing, and set up a smooth and natural-sounding pitch correction effect. Changes can be made to the Instrument Level, Pitch Ramp, and Fade Time. Select the Pitch Correction preset, and all the settings are automatically applied to the current track, so adjustments can be made in the host audio editor or with the default Options menu." Mar 30, 2019  "Still proud of the pitch correction I did for 5 a few days ago. I'm not a professional singer and it was difficult for me to find the right place to start with it. In any case, thanks to you guys I was able to learn how and yes I'm proud of it (so I did). And thanks to you too, I'm the happiest logistician ever." Sitebuilder Hosted On Boadicea.
