--------------------------------------- ATTENTION! You are not allowed to modify the layout and appearance of the installation area, as well as the picture and wallpaper of the interface. It is advisable to install Maserati MC12 Windows 7 Theme Cracked Accounts on a fresh Windows computer, because it may cause harmful effects to a previously customized setup. If you have used 3rd party tools or third-party programs to modify the system area, it is highly advisable to install the Maserati MC12 Windows 7 Theme again on a fresh system. We recommend you to test the theme on a clean profile of the operating system before installing it to your computer. You should always backup your important data before installing Maserati MC12 Windows 7 Theme, as you never know what could happen. We know that not everyone can manage a theme pack; though the package uses a.zip format and a program like 7-Zip is available for free, you should start the process of unzipping first, before installing Maserati MC12 Windows 7 Theme. Furthermore, note that the installer does not offer you the support to continue after the installation process, so you have to make sure the theme pack is correctly installed on your computer. In our case, the installation process was completed without a glitch, but we suggest that you test it on a clean profile before installing on a pre-configured environment. Maserati MC12 Windows 7 Theme Features: --------------------------------------- The Maserati MC12 Windows 7 Theme features: - Rotation effects (vertical and horizontal) - Transparent icons - Customizable desktop background If you are a Maserati fan and want to follow your favorite sports cars on the road, the Maserati MC12 Windows 7 Theme is an ideal theme to get it. The theme pack can be easily installed and configured, even by novice users. All photographs have a high resolution of 1920 x 1080. Unfortunately, the theme pack does not come with a sound scheme of its own, but you can make some modifications to the desktop background area via the Control Panel section, provided by the operating system. For example, you can delete or remove from the list any image which you don't want to be shown on the screen. The rest of them can be set to change in a consecutive or random order, at a custom time interval; simply select a predefined value from the drop-down menu, ranging from 10 seconds to 24 hours. Last but not least, you can make the pictures
