You can even remove parts of the original and create your own customized videostructure. Use 5-on-1 to convert video, audio, and image files, create custom DVD slideshows, edit photos, and much more. Free download of 5-on-1 - Activation & Setup Wizard 3.3.0, size 6.28 Mb. VideoSurfer is a free application that can create and edit video. The video editor includes a thumbnail browser with thumbnail preview and auto-label/display for Windows Media Player and WinAmp. It supports WMV, AVI, MPEG and other common formats. VideoSurfer is easy-to-use, the Windows menu bar makes it easy to edit files and the audio track is stored in the clip. VideoSurfer's editing functions are quite basic. You cannot cut, paste, crop or split clips. The programs doesn't contain a playlist creator or any other editing features like PhotoSurfer. It is possible to create new videos and complete the process using drag-and-drop function. You can choose to output video in one of the supported formats. Note that the software was released in the year 2004, and support for newer formats has not been tested. I'm a video editor and was disappointed with the lack of video editing support in 4- on-1. I've found a way to do what I need to, but the video output is ugly. I tested videoSurfer and it works like a champ. I was able to load in very basic video editing software that I've used for years, and output videos with all the effects, transitions, and timers I needed. I've found it to be the most stable and stable video editor I've used to date. They were very friendly with me and went out of their way to make sure I was fully satisfied with the software. I'm definitely recommending them. VideoSurfer is a video editing and converting utility for Windows. This software supports video clips of all formats, you can play or convert video files and then edit them. It is a very useful software for those who want to make some minor changes to the video. It supports more than 40 video formats. With VideoSurfer you can do basic video editing, like cutting video, transiting between clips, adding effects b7e8fdf5c8
