Field of the Invention The present invention relates generally to an image sensor, and more particularly, to a method for resetting an image sensor by using a charging clock signal and a holding clock signal. 2. Description of the Related Art An image sensor, such as a charged coupled device (CCD), a complementary metal oxide semiconductor (CMOS), etc. has been used in a large number of fields, such as a digital still camera, a digital video camera, etc. An image sensor has a plurality of pixels that are arranged in a two dimensional array. Each of the pixels has a photo diode that converts incident light into an electrical charge. Therefore, in a case where the incident light is the same, the amount of the electrical charge is the same. In addition, the image sensor has a reset

Assist - Dehradun, the global tourism capital, is waiting to welcome the many tourists looking to discover the Himalayan destinations of North India. It has come a long way from being nothing but an ancient town to today being the cultural and educational hub of the country. One of the best ways to experience the wonders of an ancient and medieval town is, visiting a person with the help of a guide. Traditional as well as certain cultural aspects of the place can only be unveiled if the history of the area is understood. The rapid development and changes in the Information and Communication Technology (ICT) have contributed to the development of numerous ways of acquiring information. In our days, such information can be obtained easily and at very low cost. The world of information is not so big anymore, we are just trying to find the right one for us. Today, even the most specialized topics and areas are available at the click of a button. However, the question is how to get the most important information and make the most of it. The simplest and fastest way is simply to search the web. Traditionally, one of the most effective ways to search the web and find a person with the help of a guide is the use of an application called map. With the help of this application, one can look up a place online, such as a person, property, business and so on, and find out the exact location by typing the street address or name of the establishment. Therefore, the best way to learn and gain the most important information of a person with the help of a guide is to start typing a person's name on the web application map and wait until a person or a business is shown with the required information. Dehradun is one of the most popular cities in India, and is home to many tour guides

What's New In?

My first impressions are very good. I had been looking for something like this for a long time. This application is a backup for me (and many others). It allows me to update the firmware on my Canon camera through my computer. I had the Canon EOS Live View firmware update problem which prevented the firmware for my camera from updating after Canon released an official firmware update. This app allowed me to successfully update my firmware after much frustration. I was saving the photos for 9 months so there is no need to download them before. 9-30-09 Toshiko Sato Good applications. 9-29-09 carlos carlos 9-25-09 Mark Quite nice app. 9-24-09 Anthony D Anthony 9-23-09 Mumu Mumu 9-22-09 Kiat Great app 9-21-09 Dylan This is a great app. It was painless to use and the whole process took about a minute. 9-21-09 Sean a very good app 9-21-09 weisen Good App 9-20-09 Bobby It's very easy to use, can be downloaded right into your camera and well worth it. I really like the way it updates your camera to the most current firmware available for your camera. 9-20-09 Jon Nice application. 9-19-09 Ricky I agree. I use this application to update my firmware. 9-16-09 peter best one of the day 9-15-09 Sano Sano 9-13-09 Me The greatest app ever for Canon cameras 9-11-09 Paul Good App, but I found that I could not connect from the Mac to the PC. Instead I connected from the PC to the Windows Mobile. Is this error fixed? 9-11-09 Diane Great App 9-10-09 byong Good 9-9-09 Douglas Douglas 9-6-09
