- This is a free weekly event. - Information about the new Omni: - No Omni Drops: - More Info: The first OmniBrush on the ride: The omni-planet Omniblast has remained in peace for over a century after the battle with the dark forces. Nevertheless the wildlife on planet Omniblast had suffered heavily over the last years. The Omni-swarm was a chance to change that. The Omni-workers on planet Omniblast created the first OmniBrush that they call the "Bird Brush". In an Age where war was common the Omni-workers made sure that they needed no weapons to fight. With their Omni-brushes they wanted to create a source of clean energy for the planet Omniblast. These Omni-brushes however were not planned as permanent solution to the problem. They were made to be collected, washed and used after a certain time. But something went wrong on planet Omniblast, the Omni-workers found that they were loosing an Omni-brush for every 10 000 years. The Omni-brushes could no longer be repaired. The Omni-workers had to figure out a way to restore the planet Omniblast or else they would all die out after 100 years. Impact: The Omni-workers of planet Omniblast tried to salvage the situation on their planet. Together with a scientific expedition they scanned the planet in search of a solution to the problem. They found that most of the elements from the planet Omniblast were in fact part of an Omni-brush. The Omni-workers could restore the planet Omniblast by collecting those elements from the Omni-brushes. Your task is simple. You're on a mission to restore the Omni-brushes. By collecting the Omni-brushes you try to restore the planet. To keep yourself alive you will need to collect elements to fuse it into fuel and usable materials. The Omni-brushes themselves are not that hard to catch. They change color for different elements. The blue Omnibrush is heavy metal, the yellow Omni-brush is iron and the red Omni-brush is sulfur. It's not that hard to find one at the same time but they're all different colors. You need to collect all the Omni-brushes from the different Omni-brushes. Once you have collected all the Omni-brushes from all the Omni-brushes you'll go back to the planet Omn

What's new in AereA - Soundtrack:

to Slow Down Great Bikini Babes, August 11, 2000 The author of "Think Yourself Thin" encourages her readers to try wearing one at any time. Lourdes Antonio August 11, 2000-Thinking back to my time as a model, I'd say being on the cover of a magazine really gives you an advantage in a job hunt. I don't know all the reasons, exactly, but one has to be that there have been times when you do not experience embarrassment in front of strangers, including strangers in the most jaded of work settings. Certainly, there's no embarrassment in front of someone you love, in the privacy of your home or at any other time, but being comfortable in the public eye has many advantages for women working in the business. Obviously, there are those who choose to use their bodies as their work, and those who embrace their bodies without ever modeling for a magazine, but what matters most is that our lives have been made more comfortable with the coming of the '60s, knowing that if something falls out of your underwear (or if you're a few decades away from that time, out of your bathing suit as well), most men and women won't be in a total flap. However, this doesn't mean that a great deal of Madonna's advance preparation has gone unnoticed, and the ability of the great bikinis- we've heard more about whether or not this or that bikini is too one- or two-piece (as the case may be)- can be to their advantage. Although a great deal of the pictures of great bikinis used for fashion shows or dinner interviews have been of close-ups of the skin, there's a lot to be said for a great bikini in person. Perhaps, in my past as a Bimbo, I've just been so used to not being able to see as well as I used to, but I remember the first time I saw a great bikini on the bottom I didn't mind seeing at all, even though there was a lot going on up top. Of course, you don't have to start a whole mission to acquire a great bikini or even bikini bottoms (I personally think that, given my age, I should just be wearing 'em all the time, even without looking like a 'B') in the vast
