AutoCAD 2014 introduces the concept of a digital signing certificate, allowing for one-time passwords and secure sharing of drawing files. The certificates are managed by the Autodesk Certificate Server. Starting in version 15.1, "Bill of Materials" and "Process Details" are now a part of the AutoCAD product, and were previously only available as separate products. AutoCAD LT AutoCAD LT is the light-weight version of AutoCAD. It is often used by students and hobbyists. It is free for non-commercial use. AutoCAD LT supports single- and multi-part drawings.
