** TESLA "The Legend of Heroes series is at its best when it emphasizes on stories, and at its weakest when it emphasizes on the gameplay. On paper, the Legend of Heroes: Trails of Cold Steel is absolutely worthy of being a part of the Legend of Heroes series, and once you get to experience its story, gameplay and characters in action, you will be more than happy to show off its awesome moments to your friends and your family. " - Osmosan "Loved the amazing world and the beautiful humor of the game. The characters, the battles, all was amazingly done. I cannot wait to play the next game in the series " - Motoweaver "The art direction and atmosphere of the game was very good. I have nothing bad to say about the gameplay, the story and the characters of the game. I just cannot wait for the next game to come out. " - Sen "This is the best RPG in the history of the franchise. If you like high-quality visuals and good storytelling with a feeling of deep impact, then you should definitely try this one. " - StarmanJust think about it...the army will be the only thing keeping the world's economy afloat... Wolverine 03-01-2011, 11:49 PM I dont think they'd give guns to the military. Vorb 03-01-2011, 11:50 PM I guess if something like that ever happened, I'd always be prepared with weapons to resist the people attacking (the Soviet tanks would be fair game) but probably not part of a war plan. I'm just waiting for the day when I get a call to say, "You've been drafted!"...I hate the army. CrazyCatGirl 03-01-2011, 11:56 PM I'm just waiting for the day when I get a call to say, "You've been drafted!"...I hate the army. I always thought that.
