Established in October 2016 by well-known figures in the gaming industry, The Elden Ring Game (ERG) is the first fantasy online RPG, delivered from the creators of Puzzle & Dragons. The game combines a large and bustling fantasy world which players can explore on their own or together with other players. It also contains a unique battle system and item combination system that allows the player to build their character the way they want. The various activities within the game are available in a casual atmosphere, allowing players to choose how to enjoy their game, without stress. Since its release, ERG is performing extremely well, and has received tremendous positive responses across Asia. You can enjoy ERG with everyone in your family and friends even in the mobile environment. ABOUT GREEK FIRE GAME: Greek Fire is the mobile game which originally went live in 2014. It is the first mobile role-playing game (RPG) for the Android system which includes all elements related to a light fantasy game. It is the first game of the Greek Fire series and is the first mobile RPG in which you can enjoy action elements such as combat. Greek Fire goes against the tendency for creating random games which complicate the mobile gaming environment. Greek Fire creates a game design which provides an immersive experience and is rich in content, and because of the accurate RPG element, it is expected to become a popular game. What's new in Elden Ring:

In addition to the above, here are some of the great additional features that already exist in the game:

• Facebook Connect * You can connect with friends from Facebook, and share items and information with other connected users. You can also check your friend's status, which is displayed on your own status screen. * Facebook users can check your in-game progress by adding your in-game ID to your friend list and running "[CrashLand]" in the upper left corner of the game. * Facebook users can manage your profile, world generation settings, and item purchase amounts directly within the game. * However, if you have not already previously added the company name [Konami Digital Entertainment] and the game title [Rolling Revolution] to your Facebook account, you must first update them. After updating, you can log in to your account at the "[Facebook Connect]" section of the game using your Facebook ID to manage the game.

• Conversation * Using the "Space" (talk) menu option, you can start a conversation with any player in the game and respond to their comments on the schedule used in the game. The conversation will gradually appear in the [Talk] HUD, which you can toggle by pressing the [Space] button or using the menu. * Up to ten conversations can be set up, but only the one from the start of the game is displayed in the HUD by default. * You can talk with a wide variety of people, such as friends and NPCs.

• Drop-in Drop-out * Your settings for world generation and battle operations are saved to the server as you progress through the story. You can therefore return at any time to a previously saved game and continue from where you left off.
* Likewise, battle operations that you set are saved to the server, so you can continue them at any time.

• Battle and Item Level * You can play battles in order to gain experience points and items. Successfully completing a battle awards you a certain amount of items, depending on your character level. * The items that you gain through battle play are added to your [Garb] inventory and change according to your character level.

• Autoscrolling HUDs * You can hide the [Game] HUD, Map, [Food] menu, [Water] menu, [Town] menu,
