Field of the Invention This invention relates to an electric lamp base assembly, in particular, to an electric lamp base assembly

having a simple structure and easy assembly. The electric lamp base assembly of the present invention provides stable assembly between an electric lamp fixture and an electric lamp base and is easy to install and remove. The base assembly can be manufactured conveniently. The invention also relates to a lightening electric lamp and its base assembly.

2. Description of Prior Art

Various electric lamps such as a tube lamp and an EL lamp use a lamp fixture to mount an electric lamp onto a base so as to provide lighting. In the conventional lamp base assembly, an electric lamp fixture comprises an electric lamp base for connecting the lamp to a lighting fixture and a bowl portion and a cavity are formed at the

bottom of the base. A lamp cap is placed over the base to enclose the bowl and provide
