Gibbous Moon Collector's Edition is a 3.5-style RPG adventure designed for the 5th edition, and has been converted for use with Fantasy Grounds 3.3.6 and higher. The adventure was written by Creighton Broadhurst, a highly-nominated and best-selling ENNIE Award-winning designer, and is a standalone module, designed to be playable and complete in a single 4-5 hour campaign. The adventure is inspired by the fantastic artwork of Edd 'Ed's' Teague,

based on his original character art in the famous and critically acclaimed Alien: Out of the Shadows miniature. The setting for Gibbous Moon Collector's Edition is Post-Romans Britain. In the 200 years following the downfall of the Western Roman Empire, the wilds of Britannia have become a battle-ground for the warring Celtic and Germanic tribes of the north and the west. Gibbous Moon takes place in a small settlement in the wilds of Wales, tucked away from the feuding natives to the west and the Romanised Britons to the east. The PCs arrive in the settlement after being shipwrecked, and quickly meet survivors who wish to return to civilisation, before being ambushed by the very Celtic factions that have been fighting each other for centuries. A short time later, the PCs are attacked by a tribe of wild animals, only to be saved by a band of local men. The previously peaceful group, however, now wants to keep them captive and will do anything to make sure that the PCs will never leave their land. Gibbous Moon Collector's Edition includes the following: Reference materials Maps Preliminary handouts An adventure, but no adventure. For a self-contained adventure be sure to get: Gibbous Moon Collector's Edition + Gibbous Moon for Fantasy Grounds download. Note: 7th edition compatible graphics created specifically for Gibbous Moon Collector's Edition are included. This artwork has been converted for use with Fantasy Grounds. The original artwork created for this module is based on Edd's own original artwork for his classic model base game Alien: Out of the Shadows. Fantasy Grounds - Gibbous Moon **Collector's Edition (5E) Crack + Free** **[April-2022]**

Based on the epic hero he once was, Gibbous Moon, the Dungeons and Dragons 4th Edition Player's Handbook hero, has had a long and weird life. Believing himself to be a mere construct of the undead, he kept this secret from his former companions and friends. When the group of adventuring allies he served so well in the past abandoned him, he found himself next to the towering waters of a crystalline hot spring... alone. It is fitting in many ways that when he awoke he found himself alone. Since his arrest and imprisonment, he has slowly but surely started to lose his sanity. Now, with the full moon about to come and go, he must discover

the truth about his undead origins and prevent the impending threat of the savage moon from sweeping over the land before he is forced to join it and relive his endless slaughter of the innocent. The End Is Near... Play Gibbous Moon Collector's Edition today! Be careful with a low Intelligence and a low Constitution. If you're Unconscious, or Unconscious for a long time, they're probably dead. Usually, most PCs tend to be High Constitution, High Dexterity, and a bit of Magic with their high INT. The way they play their Characters is "Keep going until it's over" Difficulty, or Difficulty Ratings. Based on the number of skill points you have at Disadvantage, and not how good or bad you are at that skill. If you have a low Intelligence and low Constitution, you're probably going to have a bad time. STATS: You have a high Dexterity and Intelligence, and have the ability to use firearms if you had the appropriate perk. You're left-handed. You can also talk to animals, and if your pet is friendly towards you, you can ask it to find a specific individual. A Little Forthcoming Your character is: HIGHLY UNIQUE: When rolling for background, you're going to give it all you got! If the DM allows it, you can also have a Signature Ability as your Signature Spell or Feature. Your Signature Ability is what you're most badass at. Your Signature Ability is listed first. (The Signature Ability must be introduced to the DM at the game's start, even if it changes during play) Your signature is also something you've made an effort to learn, so whenever you perform it, you add your Signature Ability (d41b202975
