Yukyo Station is a re-make of the popular 2000 Japanese Japanese RPG "Shirou to Borosu" (exchange English titles). It is inspired by the same game in concept, story, and overall visual design. Lifespan: The game contains 4 life spans of the characters (2nd life span for Dr.Shimura (Kenshi) and Tsubasa), more than 5 hours in total runtime. The game is expected to be released this month (end April 2019), a preliminary version is available now, please follow us on social media or sign up for the latest news Supported Version: RMMV2019 v15.6 Rpg Maker Studio 3.0 Update 3 or greater Forum Post related to Yukyo Station: Follow us on Twitter: Follow us on Facebook: Website - Forum - Redistribution (sharing) of this assets has the following consequences on the responsible party 1. Content that is redistributed or sold can in no way be used in a way that would infringe the copyrights and rights of the licensor and the copyright holders. 2.
