I am currently using a text file, but I want to create a realtive simple one (unlike this) so that it doesn't get too complicated. Here's the structure of my text file (the lines are separated with) The first one would be Hello World. And this one is to ask for input(which will be the one speaking) I just use the following codes to talk to the file.

```
int main(int argc, char** argv) { int i = 0; FILE *fp; if (argc!= 2) { fprintf(stderr, "You have to give a txt file to read. "); exit(EXIT_FAILURE); } fp
