Summary: Firefly is a unique set of 3d objects and the event editor that are capable of transforming 2d game development skills into 3d. The set of objects include: 0.5 million objects, all with the control of a special "Firefly Class", all with their own selectable properties and actions. The events can determine whether or not to fire or not, whether or not to activate projectiles and flashes, and where to fire. Good and Evil Gauges: The events can test a Good or Evil meter, and shoot the appropriate number of times based on whether or not you are Good or Evil. Provides the ability to combine multiple events together in a chain. This tutorial will walk you through creating a simple 3d FPS using the Firefly object set and it's event editor. What's new:

"A lynx begins its hunt at night and moves slowly and silently until it has its prey in its clutches. Then it slowly runs through the underbrush until it can rest. I thought about that, then I thought about what I had to do. Guilt. Felt damn good, didn't it?" FATE Core Rulebook Book 2.1: Fate Core System Chapter 1: Fate of Destiny "What I do is for the Empire, or whoever will rule after the Dowager. And the Dowager, despite what you thought, does not rule my life. On the contrary, she rules the life I make for myself. When I choose to live a life that is self-serving - a lie, a fraud, - I dishonor my career and the Empire I serve. And I dishonor my friends, who chose or are condemned to follow what I lead." Chapter 2: The Adventures of Will and Zoey Eiffel "I found the most interesting thing, of course, was that the whores of Paris were victims of the same disease. Some of them had it on their faces. Others in their fingernails and ears. It was, perhaps, the first time a syphilis epidemic had taken the face and

The Great War is approaching! Finnish armoured corps have scored a great victory against the invading Germans in Poland, and Russian forces are advancing on Berlin... In this game you will have the opportunity to play as an officer of the Finnish armoured corps, or a German officer in Nazi uniform. Campaigns and scenarios are being prepared to give a great replay value to the game. A variety of different situations can be played, including the one where the Soilers are trying to destroy the homeland of the Finns. You will be able to travel from the most modern set in Eastern Europe, to the densest forests and swamps in Finland. It's going to be a long journey, but it will be worth it.Q: How to remove the glitch when using scrollLeft() I have a div that slides out when the screen size is greater than or equal to the div's height. This works fine until you use scrollLeft() on the div. While attempting to scroll the div, a glitch occurs, causing the div to jump to the correct position. I've tried setting the overflow to auto, but it won't make a difference. Here's my code: var portfolio = \$("#portfolio"); var draw = setInterval(function () { if(window.innerWidth (\$("#portfolio").height())) {
