We are a team of 2 members from Europe, originally from Brazil! Led by [b]Diana[/b] there is now a third member, [b]Caroline[/b]! We hope to continue to create games that allow people to learn and have fun! At the moment the gameplay and the exercise are made for the English version, but we are working hard to add esperanto, portuguese, french and spanish language options! The code is entirely in lua and written using wxpython and pygame, thus it has a very small footprint (under 250kb) For more details about the game please read the [b]Wiki[/b] here. You can also check the [b]Website[/b]! We look forward to seeing everyone playing the game! Download: For PC: For Mac OS X: If you like the game then please consider donating to us!
