VR Karts is a fun and family-friendly Virtual Reality racing game designed specifically for the Oculus Rift. VR Karts features arcade-style races with a simple and intuitive control scheme. Pull the sticks to steer, tap the touchpad to brake, and use the left stick to accelerate and the right stick to accelerate. Racing opponents using weapons like rockets and shurikens, collect powerups, and compete against other players from around the world to become the world champion! This title is a free-to-play game, but you will need an Oculus Rift to play! In VR Karts, players find themselves in the virtual cockpit of their own customized kart. In each race, players will be challenged to drive through a series of 5 different environments, all with their own unique characteristics and challenges. Race opponents using different weapons to gain the upper hand and dominate the leaderboard! Collect powerups as you pass through checkpoints in each environment. Drive through checkpoints to earn special upgrades and add ons for your kart. VR Karts is a new way to experience racing and come out the other side
