Be an undefeated gladiator from the 24th century. The year is 2177. You are born a slave, raised in gladiator school, and taught to fight to the death. One day you're released and brought to the great Colosseum to fight in a gladiatorial game. Your goal: defeat the other gladiators and win the favor of the crowd and the beautiful goddess. Betrayal and death await you. The city and everything you've ever known lies at your feet. You must survive to fight another day. With seven different styles of gladiators, multiple weapons, and different arenas, you will find yourself in Rome and choose your path to survive. Who will you become?

The Rise of Rome
A New Empire: The Roman Empire has flourished over two centuries into the 24th century. The Roman Empire is a new Empire - one built on a new economy - energy. Trading goods across Earth has developed into a massive enterprise, and the Roman Empire is a major player in the business of trading. Worldwide war has been steadily fought during the Empire's growth, and this war has been guided by the terms of the Peace of Rome. The newly formed Empire is a powerhouse, expanding into the Balkans, Middle East, and Western Europe, with power based in the North American continent. The Empire is engaged in the Age of Energy, the age of High-technology, and the age of progress, and with it comes a new nation, with its own culture, language, and way of thinking. Coming to a theatre near you:

New Artisans and Scientist: The Empire has assimilated many cultures and traditions, and now thrives thanks to their trade with each other and more distant worlds. Several new artisans and scientists have been produced by the Empire's quest for progress. (These new characters will be available in the game when you

begin the game.) 3 New Cities: Rome is now the World Capital of the Roman Empire. The Empire spans as far as the United States and Canada, and with the new buildings, trade, and technology - there is little doubt that the Empire will continue to expand. The Empire's modern world is one of unparalleled technological progress, and great scholars thrive as the Empire's researchers combine ancient knowledge and modern technologies to create new items, weapons, and inventions.

----- +The Strv m/42-57 Alt A.2 is a medium tank developed on the basis of the French SOMUA Strv m/42-44. Only the hull, turret and gun mantlet remain from the game object which once belonged to French war-machine. The turret is equipped with a new 57-mm gun M42 D. You can only choose one gun from the game, but its a great gun, with armor penetration of up to 256 mm against vehicles of tier VI and above, and explosive and HEAT performance. The gun has a dispersion of over 400 mm at firing distance of 1500 meters. The gun mantlet is strengthened to the front and the sides and has an explosive trap. The armor of the main gun mantlet is 1,15 mm of steel and side armor is 4 mm thick. +The Strv m/42-57 Alt A.2 is intended for an exchange of weapons only and not as a new vehicle. Its mobility and hull armor are relatively low, but the vehicle offers an effective concealment and protection in the form of a large binoculars to watch the battlefield from an interior machine house. +The Strv m/42-57 Alt A.2 features a high level of cover for the commander and the machine gunner due to the presence of a heavy camouflage net from the previous piece of camouflage and an automatic loader for the crew. +The Strv m/42-57 Alt A.2 benefits from a new engine, which will give more power for less fuel and will allow for their increased mobility. +There is the possibility of

adding the PvP bonus to the vehicle. *The amount of the bonus depends on the tier and the number of players in the game. A team has the ability to team up and combine their tanks to receive more bonuses. +The Health, Gun and Armor in the game "World of Tanks" is played with a special indicator: yours. According to this indicator, you will have to be more conscious of the position of the enemies in your team and your armor. This indicates whether to leave the vehicle or not, to aim and fire more or less. +The Strv m/42-57 Alt A.2 has three upgrade slots that can be equipped with a "Makeshift" radio, a first aid kit and the "The Company Commander" bonus. of the Seas Cruise ship brands are about to hit it big and the global coaster fleet is growing! When Royal Caribbean unveils its newest cruise ship, the 7th Oasis of the Seas, August 14th, passengers will see the same metallic graphics in all-new colors that Royal Caribbean debuted on Oasis of the Seas. This would seem to be an obvious stage for other cruise lines to copy, after the Royal Caribbean success. However, other cruise lines have so far stayed away from copying the latest creation created by Royal Caribbean International and now feature a side Royal Caribbean's. Advertisement Without knowing how the new Oasis of the Seas will be compared to its little sister, Oasis of the Seas 2, Royal Caribbean decided to tackle this comparison by first reviewing the 9 cruise ships already operating. Comparing The

Oasis of the Seas Cruise lines are planning to invest \$600 million when the latest Oasis of the Seas is launched. This brings total investment in the marketplace at a \$1.1 billion. With annual net profit margins averaging more than 25%, Royal Caribbean provides a solid profit base on which to launch a 9th Oasis of the Seas. With a capacity of more than 6,000 passengers, you could say the cruise line has plenty of room to turn the ship into a Royal Cruise. According to Royal Caribbean, the latest Oasis of the Seas will offer more features than its previous generations. In an article carried by Cruise Industry News, Royal Caribbean gives guests a preview of the latest features. Curiously, it seems Royal Caribbean went backwards in terms of vehicle design and layout. As you can see from the chart below, Royal Caribbean adds a sixth slide to the Carousel, a slide deck to the Promenade, while cutting the show floors. Carousel Space Royal Caribbean's previous generation ship, Freedom Class, began the change in ship layout two years ago with a carousel in the lobby. Today, Royal Caribbean moves "magazine publishing" and stateroom function to the floor by the lobby. The floor will be filled with shops and outlets, while the lobby will be filled with a carousel. The "Carousel Displays" section states "The new Carousel will be

located on Level 1 of Royal Promenade and also houses the new Wave Pool and FlowRider surf pool. Carousel displays will target local culture, while giving guests a fun interactive way to learn about local food, history
