I tried to open the file on the same phone (My LG G3) from the camera app and it worked (the file can be opened and saved without any problem). But when I try to save the image on the same phone from my app (which is written on IntelliJ), it gives me an error message saying "This app is unable to access this photo". I use SharedPreferences to store the location of the directory where the files are saved (if the app is in background). The photo is taken perfectly, so there should not be a problem with the camera. I am now confused how it fails to save a photo without any problem (open it) on the same phone. The code of my app: public static File saveImage(Context context, File source, final int
