---

found that the folder “user defined folder” is not in the list of folders to move to. It has “Microsoft ActiveSync” as the “move to” menu option. I would like to move from this folder to any folder on the computer. I have Windows 7 x64 I have two outlook folders one is named as “Personal” the other one is named as “Work”. I also have “Home” folder inside

---

of it I want to move the first “personal” to the “work” folder. Is there a way I can do this please?

For the move to option that you are talking about, it works only for the folders that are listed on the “Move to” menu and not for the user defined folders. Although you cannot use the “Move to” option to move the “Personal” folder to the
