Since you can download the full version for only US\$199, if you don't need to work a little bit for this question, this is the most best solution. About License key. I just want to talk about this question, This question has already many reports. For all these cases, they're always lost all this license key. After you apply all the key, you still can't work even you can use this version. All these cases always can meet this problem, Here, I want to talk about this problem which you can't work when you use a license key. When you use a license key, you need to work 2 steps first. 1. Activate the license key. 2. Run the file you want to activate. We also should know about this file. You can't find this file on the hard disk, but you will find this file when you use the license key. Where is this file? These file always can find in the following path of the license key when you activate the license key. The path after you activate the license key. We can say the path found by key Xforce keygen. You can also find this path when you used this key. You can call this path as the Autodesk License Key Path. If you didn't find this path, you should find this path in the License Key Manager. The location of your license key. Usually it located in C:\Users\User\AppData\Local\Autodesk\AutoCAD 2010. Because, the path which you see here is the path to install this version of Autodesk 2010 with your Autodesk License Key. When you activate this key, the whole path locate by this key. How to get the license key? 1. First of all, you need to visit the Autodesk License Key Manager. 2. You can find that the license key is installed in Xforce keygen. 3. And, after you activate the license key, you can install the whole path locate by the license key. How to use? There is a file in this path and its name is xforcekeygen.
