Why git push doesn't allow this? A: Quoting the documentation, under "Symbolic Branch Names": A symbolic branch name contains a sequence of characters to describe a branch. Symbolic branch names may begin with a dollar sign ($), or a tilde (~). That is, the "." character is not allowed in a branch name. You can achieve what you want by creating a branch that is named ".." instead, then using git push --orphan to transfer it to your branch, and then renaming it to the name you want. Sunday, June 15, 2014 Social Fabric During my second year of college, I interned in an organization called Community Relations. We met monthly, and would discuss issues that affected the neighborhood where the organization was located. We would take our discussion to the next level by organizing community events to discuss the issue. One of the issues raised during our meetings was homelessness. Being located in a suburban area, many of the residents had found themselves in unemployment and in search of housing. Our organization began organizing events to raise awareness of the problem, and

to connect residents with resources to help them find a home. This was one of ca3bfb1094

The effects of lidocaine on cerebral blood flow (CBF) and cerebral metabolic rate of oxygen (CMRO2) were measured by positron emission tomography using 15O2 and H215O. Ten healthy volunteers were studied on two occasions, once after placebo (saline) and once after an i.v. bolus dose of 20 mg lidocaine. In both the saline and lidocaine sessions, CBF and CMRO2 were measured under baseline conditions and after the administration of 133Xe into the carotid artery. Lidocaine significantly reduced mean blood flow (baseline values, 1.39 +/- 0.17 and 0.82 +/- 0.11 mL 100 g-1 min-1 for saline and lidocaine sessions, respectively, P Ask HN: Android development - correct It seems that a lot of people are moving away from android
