What's New In?

MADISON, Wis. -- Some things never change. Wisconsin players have been given a day off from practice each day for the past few years. They have remained the same team throughout the fall and the Badgers don't appear to be changing now that there are only four regular season games to play. The offense looked good, scoring 63 points against South Florida and the defense played well as well. But even with a day off, the Badgers still have to prepare for the Nebraska, Iowa, Penn State and Michigan State games. Each of those four games will be played at Camp Randall Stadium. Much of the focus this week has been on the Wisconsin-Nebraska game, but what about Michigan? Is the Badgers more worried about Michigan than they are about Nebraska? “We've got to be concerned about both, because we have two tough Big Ten games,” head coach Bret Bielema said. “There is really no difference with Nebraska, really, except we play them here in our stadium and there are certain things we can do to control the environment. So I don't see any difference in what you would do for either one. We will do everything we can to put our best foot forward. Nebraska, as we all know, has a lot of history with the folks here in Wisconsin. So we have to take all those things into account.” Bielema said the bowl ban has a lot of positives. “To be told you can't play for three weeks is huge to the football team and to some degree it is a letdown,” Bielema said. “That is a positive. The kids have been busting their tails, practicing and working hard, and they can't get a break. So it is a great two-day off and a great opportunity to get some rest before they take the field again. The guys can go home, take a couple of days, and then start thinking about the Nebraska game and then prepare to play Penn State.” The biggest concern now is deciding who will start at quarterback. “I think we've talked about that enough,” Bielema said. “It is a small picture. We are going to play one guy at a time. We want to make sure he comes in every day ready to go, and I think all these guys have done that.” The Badgers will probably have to play somewhere between four and five different starters this year. The Badgers will not take a quarterback in
