The Elden Ring is an action role-playing game for Mac and Windows. It is based on the popular "The Dark Savant Saga" series. The game is set in a world where all the races of the world are oppressed by an evil force and the world is plunged into darkness. In the RPG mode, the player directly attacks the enemy and overcomes the challenges of the world. In contrast, the player has control over a familiar, lighthearted character that reflects their play style. In addition, a dungeon-crawling feature that can connect the world map with the single-player dungeons has been added. The OS X version of the game is available in English, Spanish, Japanese, and Traditional Chinese. ♦Media ♦Read more about the games ♦Download the game from the App Store ♦Download the game from the Google Play Store ♦Check out the official website ♦Watch the gameplay videos ♦Visit the official Facebook page ♦Discover the other games in the series △Do not install the game on your iOS device while it's connected to a Game Drive; install the game on a separate iOS device. △You must have an Internet connection in order to play the game. △The game contains content that may be objectionable to people of certain ages due to, for example, partial nudity or sexual content. △This game is not suitable for people who are easily offended. △The game contains voice acting, so please be aware of your surroundings. △Make sure that you can trust the developer. △Apple and the Apple logo are trademarks of Apple Inc., registered in the U.S. and other countries. △The banner for this game is available to use from the game. △This game contains minor in-app purchases. △This game is free to play, but you can pay real money for in-app purchases. Elden Ring With Key [Latest-2022]

"There are no circumstances that cannot be overcome by building up your strength. Fighting becomes easy and progress feels rewarding." "Summoning is great, gathering loot is great, and the fast pace is great. If that isn't enough to make you want to continue playing, this game has more replay value in the variety of possible stories you can tell." "The strongest feature is probably the large-scale dungeons. You can fight these on your own, but as an Oratorian, you can also send your allies with the Dragon's Horse to join you. If you have a large party in the field, you can even send the entire army to visit each other's lands." "There is not much in terms of characters who resemble the classic fantasy race, but your character grows as you play, and you gradually become a person who is trustworthy." "The feel of MMO is prevalent. You can easily see the different stories in the lifestream of the characters you can interact with, and you play the game with your fellow players." "Because of the full-scale dungeon and the randomized map, your progress through the game is never the same." "I think it's worth playing more than once." Ask HN: Where do you apply for internships / job postings? - archit_h Recently I have realized that I need to start building a portfolio of my work.<p>Do you guys know any sites where we can register our ideas and get a link to let recruiters notice our entry. ===== firefox If you mean internship / job site, I know of only one. I'm sure there are more, but it's the only one I know of. Really, I don't expect lots of you guys to know one as most of my colleagues work in finance or consulting, is the only client-side site, but they also have a job board on the backend (i.e. you can search for gigs, gigs can search for you, etc) If you don't mind submitting your resume to a ton of recruiters, I wouldn't spend my time working on that too much. ----- nir For now the best tool is _netvibes.com_ - free and with powered searchable database, and scraping great data. ~~~ _pius Co-founder here! Thanks for saying that. We use SearchCouch at netvibes, but we didn't see the features you mention here. In fact, I'll be curious if other people see those things as important. At any rate, SearchCouch is cool - check it out! ~~~ mikecane Is SearchCouch actually working? I tried it and get a 404? ----- forgottenpaswr After 5 years at the best markets I think that most of the people using "internship" as a label of their life are all searching and trying to look for
