Topic: U.S. Jewry for Israel Below is a list of what the U.S. Jewish community stands for, the way we believe that Israel ought to be represented in Washington and how we believe Israel should use its influence to achieve a better future for all. Agree & Relate 1. We believe that Israel is a vibrant and dynamic democracy that – on the basis of its own citizens’ free will – has decided to live by democratic principles. 2. We believe that the vast majority of Israel’s citizens support the State of Israel’s right to exist, oppose the introduction of liberal values into Israel, and believe that the people of Israel should decide their own fate. 3. We believe that the Israeli’s right to live in peace is a human right that should be respected throughout the world. We believe that the right of every Jew in the world to live freely in their homeland is a basic principle of human rights. 4. We believe that the survival and security of Israel is an absolute necessity for the world’s Jewish community. 5. We believe that Israel’s existence as a Jewish State has historic, cultural, ethical and religious significance for the Jewish people. We oppose the end of the dream of a Jewish State and the replacement of Israel as the homeland of the Jewish people. 6. We believe that Israel’s power stems from its democratic leadership, its moral standing and its ability to lead. We believe that Israel’s ability to integrate its Arab population, to have complete and equal freedom of individual choice is a basic requirement of its right to exist. 7. We believe that it is time to create a world that is based on freedom, justice and peace. 8. We believe that – at the same time as it upholds the values of democracy, equality, the rule of law and human rights – Israel holds the key to peace in the Middle East. 9. 6d1f23a050
