I'm making a forms array which will be accessed using the \$\_POST. However i want to add values to this array from another array which will be generated upon submit on a form. Example: \$form = array( 'name' => 'Kevin', 'address' => array('city'=>'Louisville','street'=>'123 Maple St.', 'postcode'=>'12345'), ); \$ids = array( '1' => 'Kevin', '2' => 'Kevin', '3' => 'Kevin' ); Will this code look something like this? foreach(\$ids as \$id) \$ c6a93da74d
