December 7, 2017 - My dad borrowed this one from him a few weeks ago to check with me if there should be two numbers - a serial number and a catalog number. I didn't know what it was. I thought it might be some technical information, like how I thought it was supposed to be stored in a database, but it was just printed on a piece of paper? Which is what some people say when they find numbers like this: "this really shouldn't be here, it's so weird." The man then started talking about selling them. He said he has one for me, but I need it. Then he added that it would cost 20 bucks. After the
