the game takes place in the city of san andreas where the player assumes the role of carl johnson, a disgruntled ex-con who can now move freely throughout the city and has the ability to commit a variety of crimes, such as stealing cars, mugging pedestrians, and other crimes. the game provides players with three modes of activities, including grand theft auto: san andreas single player mode, grand theft auto: san andreas multiplayer mode, and grand theft auto: san andreas online mode. while playing grand theft auto: san andreas single player mode, players can participate in various side activities, such as uncharted: drake's fortune sniper ghost warrior shadow warrior and mafia wars. it is worth noting that although the game mechanics are similar, there have been some changes done in the gameplay structure of the game. however, no matter what changes are done to the gameplay, the game still remains entertaining for its new player base. each level in the game has its unique features and variations to keep the players interested. although most of the persons are not really interested in

developing a gta san andreas game or as compared to that of the grand theft auto iv game, but just because of the grand theft auto franchise in itself, the game has gathered a large and huge fan following over the years. it is because of this game that people are more inclined to enjoy driving around freely and experiencing the thrills of stealing, destroying, and pursuing to win in any level they are on. the driving experience would be less interesting without such gameplay elements.
