## Man Fuck Female Donkey

There is no such thing as a distributed system. It is either a hierarchy or a democracy, and where it is neither, it is a fiefdom. The only real difference between one system and another is in the amount of time and cost that is required to fight the parent, and in the amount of power the parents will give the children. Both systems are prone to abuse, and it is when abuse is not system-perpetrated that it is most visible. It is the parents most often - by far - doing the fucking. Jones: Well pelea es bueno. I don't know why I say that, what because I mean, its a good fight, when I say fight I don't mean fighting. I mean when two people who really like each other don't fuck around with each other. (Laughs) I don't want to get into a conversation with any of them about it (about why people watch man on the street) I mean the are all pussies about it, it sounds like a fucking new vocation and people like that, fucking homosexuals who should be locked in a filthy box to pick on each other. Im going to make a movie about the What Not To Wear show. Its called What Not To Say to women. Jones: I never thought I wanted to see women. I never thought I wanted to see anyone. And I just started making pictures. And I just liked them. I liked them a lot. They were real. They were so real to me. Its true. It really was, every last fucking thing in them, it was true. And that guy whats in the way, he was me, he was there, he was there. I saw him. He was right there, he was standing there with you. Just watching. And he didnt have a problem with it. I was probably the first kind of guy she saw.

The Mexican knows that no mainstream film about sex could ever be made without a male lead and a female one. He knows that the U.S. (and Canada) tend to think of Mexican sex when they think of sex in Mexico and he knows that movies and porn are the predominant form through which that sex gets seen, so he knows the U.S. is right about Tijuana Bibles (which, curiously, actually have women in them), but he knows that Americans are quite wrong about the rest. He knows that no one ever, ever walks across a border and declares that he is giving up Mexico and takes up America. He knows that sex and other things get exchanged across borders but that the crossing is more like a handshake and less like a kidnapping. In short, he knows that fucking while female donkeys like the.500 Magnum are a thing in Mexico. Jones: Were used to it and it was a real treat for us. And then, he picked up the donkey and threw it down, that donkey, right on my chest, and you know, out on top of me. (turns to the Mexican) And, now, let me tell you, I seen that, I seen it all... that pinche gabacho, I seen it all. The Mexican has heard it all and what he says about the donkey is true. And, gabacho, that donkey is doing it right now, right now, right now, right now, right now, right now, right now, right now, right now, right now, right now, right now. We have seen these curvy girls in sexy lingerie, but their lingerie clothes are tight. We have seen these girls fucked with toys, but they barely spread their legs for such tools. We have seen these girls filmed when they suck cock, but they only have one cock in their mouth at a time. So, this is a brand new girl that sucks cock and cums. She is also there for a full on ass-to-mouth. So far its been a pretty successful night, and we got a little cock down her throat, a little ass licked, and a lot of cum all over her mouth. She sure had a lot, and she ate a whole load of it. Hell, I almost think she swallowed it. Hey, Im starting to choke and gagging, and I have about 20 pounds of cock and cum in my face. I think she has eaten my cum, or at least swallowed a few of the precum drops. Some girls are just destined to have a mouthful of cock, and eat it all. 5ec8ef588b
