House project Blender, a free and open source 3D creation software. In this lesson we will learn how to create a house in 3ds Max from simple geometric shapes. A house is the basis of the basics in 3D Max, so let's figure out how to create it so that we don't waste time creating separate blocks. We will use just two shapes: a cube and a cylinder. So, at the beginning of the lesson, let's remember what a triangle, a circle, and a rectangle are. You can see in the picture that a circle is part of a circle, a triangle is part of a triangle, and a rectangle is part of a rectangle. dd2bc28256
