## **Adobe Pagemaker 7.0 Tutorial Pdf Free 742**

Learning new software is exciting. It can transform the way you think about design. The rapid advancement of the software and the new features makes it a challenging task to master the basic tools of an industry standard software. This is the very first part of the Photoshop lessons. We are going to learn how to master the Photoshop software in this tutorial. In this tutorial, Brian will discuss workflow for PageMaker. At the start of this tutorial, Brian starts to setup the pieces for the cover document, which is an A4 size (210 mm x 297 mm) Letter Book with margins of 3.5 cm all around. The first step is to set up the cover, create an image to use as a background, and add page numbers for the front and back cover. In this tutorial, Brian will teach you how to insert content from other files using the various options in the file. You will learn how to add icons, insert external links, and cover images, and bring in shapes to create objects. The final part of this tutorial will show you how to insert text directly from a Word document. This involves learning how to set up a header and footer, insert images, and adding some images. Brian also shows you how to add logos and adjust the text and Paragraphs. The next few tutorials are related to basic printing. Brian will show you how to set up and print out to the File Options option. The Custom Paper and Output section includes a basic selection of covers and center pages. The Custom Paper and Output dialog covers page and print orientation and paper size. this tutorial shows
