this is the japanese version of "head-to-head pro yakyuu" or "jikkyou powerful pro yakyuu" for n64. this version has no n64 mode, unlike japanese version's. because all the characters are japanese, the english name "jikkyou powerful pro yakyuu" which means "dueling strong world champion fighting pro yakyuu," might be better. all in all, the title makes use of more than 70 of the archival characters from the history of the japanese pro-wrestling phenomenon. many of the ten included teams are long-established wrestling outfits which have a real historical relevance. in addition, there are also several characters who are created for the title. this is a title which brings the world of wrestling closer to the general public. many of the characters are not as well-known as the well-recognized ones like "dragon," "tiger mask," "kobra khan," and "super tiger" (the latter two are the most well-known). these are characters who are overshadowed by other, more popular characters. however, each character is given his or her own distinctive personality and it is apparent that every character is definitely a lovable scoundrel of sorts. anyone who watches a professional wrestling program will feel right at home here. various familiar aspects of pro wrestling can be seen in "pro yakyuu: powerful pro yakyuu 4". the most noticeable element is the tag team system. "pro yakyuu" is often a team affair. groups of two or more wrestlers form a tag team. because of this, you can choose 2 members to work together and try to win over the audience. just how the tag matches work varies from one team to another. this is how "pro yakyuu" continues with this title. it appears that with each month's version of "pro yakyuu" more of the game will be added.
