
**PATCHED Acronis True Image 2019 Build 13660
RePack By KpojluK**

protecting business-critical data is a priority. by default, acronis fully encrypts all data stored in true image backups. you can decide to encrypt only the files that are more sensitive, or encrypt all of your backup. once your data is encrypted, you can protect it with a pin.

- ✓ more features in fewer clicks. simplify your backup routine by adding multiple drives to a single backup set, change backup settings such as the number of times you want to back up, or compress backed-up files with just a click. we've added features to help you quickly back up and restore files, data, programs, settings and more.
- ✓ resiliency. improve your backup security with our unique privacy manager. protect files by removing the value of any metadata that

might be used to identify your files, then encrypt them before saving them to disk. if the original files are later damaged, you have the option to restore your files and metadata from the back-up, guaranteeing you can restore exactly what you originally backed up. ✓ greater data recovery options. we've added the ability to recover files with just a few clicks. quickly choose an image file that matches your type of media and then recover your files from it. if your drive fails, you can backup to another drive, and you can also recover from a usb or dvd disc. ✓ support and training. our support team is here for you. you can get help with resolving common issues, such as password resetting. we offer a lifetime support guarantee so you can call or

email for all your questions and queries.
