Check the price history of the game to determine how good the deal is in relation to historical low offers. If the price is still too high, create a price alert and receive an email notification when Totally Accurate Battle Zombielator matches your budget! TABZ is an online role-playing game that combines extremely realistic graphics with a detailed battle strategy. All the gamemodes available for the game are set in medieval environments, which were the preferred setting for most of human history. There are three different scenarios that span time periods, namely the Renaissance, the Dark Ages, and Medieval times. The Renaissance scenario is set during the late fifteenth century. The Dark Ages setting takes place during the period between the third and seventh centuries, and the Medieval era is set during the years of approximately 400-1000. These three times can be joined together for a longer gameplay experience. Fortunately, there are a wealth of options when it comes to arming your soldiers. You can choose from a variety of medieval weapons ranging from handgun to spear, to shotguns and even flame throwers. Equipping your soldiers is an important decision that will have a strong impact on how your soldiers perform in battle. In terms of armor, you can choose between plate mail, chain mail, body armor, or even leather armor. This also affects your soldiers' health and starting equipment. 5ec8ef588b
