Now, when opening the.rar file you just downloaded, you will find a folder named Whatsapp inside. Inside the Whatsapp folder, you will see multiple folders based on

different phone versions. Go to that folder that is related to your phone and extract the pack. The Rar application will be present inside. Navigate to the folder android/data/com.whatsapp/ and you should now have access to all the content on your phone. Now you have downloaded the Whatsapp backup.rar file to your computer, the next step is to locate the WhatsApp application on your phone. Find and launch it. Now, install the.rar file you previously downloaded on the app and select the type of backup you need – choose either the whole phone backup or your chats only. Again, navigate to WhatsApp and click on "More" and then click on "Add Archive...". Select your WhatsApp_Backup_Mobile_x6 (or x7) (and NOT Whatsapp_App_Backup).rar file and click on add. Your Whatsapp backups will now be restored. Once you are done restoring, you can safely delete the backup.zip file that you created earlier. That's it. You should now have a fully functional and updated Whatsapp Messenger. After opening up WhatsApp app on your phone, tap "More" and then select "Add From Archive". Select the "WhatsApp_Backup_Mobile_x6 (or x7) (and NOT Whatsapp_App_Backup).rar" file and press the add button. Your Whatsapp backups will now be restored. Once you are done restoring, you can safely delete the backup.zip file that you created earlier. That's it. You should now have a fully functional and updated Whatsapp Messenger. 5ec8ef588b
