Also if your update asks for a reboot and you don't need to reboot, then the computer may just automatically reboot after the download is completed. If Windows Update fails to download an update, try restarting the computer before retrying the update. If you have any questions or concerns about your computer, please contact your computer manufacturer for support. If you are prompted to contact Microsoft Support for technical assistance, contact the Microsoft Customer Experience team or visit <https://support.microsoft.com>.
